

WORKBENCHES AND WORKSTATION SYSTEMS

WORKBENCHES

Thanks to the wide range of combination options, each workstation can be individually equipped with LISTA workbenches to optimise space. The combinable workbench tops, drawer cabinets, power unit cabinets, vices and rear panels can be organised to create optimum working conditions. The latest findings in ergonomics are incorporated and everything is delivered to the highest LISTA quality even for the most demanding working environments in workshops and heavy industry.

Workbenches: With multiplex or beech top including pre-assembly and fastening material. Drawer cabinet can be fitted on either the right or the left.

Multiplex top: It is made of steamed beech veneers glued in multiple layers, is waterproof and has bevelled edges as well as a sanded, oiled and waxed surface. The top is splashproof, dirt-repellent and largely insusceptible to oil and grease.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

Workbench		Art-Nr.: 59.007.020	
Net weight kg	111	Clear height mm	300
LISTA units	27 x 36 E	Number of front heights mm	1 x 50 / 1 x 100 / 1 x 150
Width mm	2000	Drawers useful width mm	459
Depth mm	750	Drawers useful depth mm	612
Height mm	840	Number of drawers	3
Table worktop	Multiplex	Drawer load capacity kg	75
Top thickness mm	40	Locking system	KEY Lock
Height workbench legs mm	800	Specification	Standard
Housing width mm	564	Bench load capacity kg	360
Housing depth mm	725	Colour	Light grey RAL 7035
Housing height mm	383		

Product-specific benefits

- + **Maximum stability** with workbench load capacity up to 3 t, workbench tops extremely robust and resistant
- + **Outstanding design diversity** thanks to the wide range of components, substructures, materials and surfaces
- + **Maximum ease of use and ergonomics** with height-adjustable workbench leg assemblies for optimum working heights and leg room, as well as our modular superstructure system
- + **Easily adaptable** to new working environments through flexible integration and reconfiguration of all components in the modular system
- + **Full mobility** to different workstations when fitted with rubber or nylon castors for mobile use
- + **Quick and easy installation** as the workbench tops have pre-drilled holes including threaded inserts for fastening all substructures and drawer cabinets

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
